11th Annual Seminar

Presented by

Breast Imaging Specialists

Begins at 8 AM and ends at 1:15 PM

7:15AM - Registration & Continental Breakfast

No-Host Parking

1 credit hour: Breast Biopsy Decision Making – Choices and Options - This year Marie Tartar, MD will enlighten us on the multiple choices now available in the breast biopsy arena. She will discuss the decision making process for use of Stereo, U/S, MRI, PEM or BSGI to optimize the patient's diagnosis and the variables and performance of each interventional modality.

1 Credit Hour: DR FFDM QC - Aiming for Success - Marcy L. Adcox, RT(R)(M), Holistic's Women's Health Specialist, will walk us thru the Hologic 2010 digital QC program. An in-depth explanation of digital QC will be shared along with the frequency and documentation requirements to meet MQSA mandates. Troubleshooting of results will provide us with a realistic QC session.

1 Credit Hour: An Important Update on Avoiding Inspection Violations - Beverly Thomas, Pacific Region FDA/MQSA Auditor and Consumer Safety Officer, will provide us with the differences between the State vs. ACR vs. MQSA and an update on the MQSA digital inspection requirements. She will focus on the most common violations and how to avoid them – valuable information for every facility.

1.5 Credit Hours: Working Wonders With WWD - Women With Disabilities - Edna Marr, RT(R)(M), hails from Oregon with expertise in positioning of women with disabilities. Edna will sensitize us to the challenges WWD face and provide guidance to interact in a manner that is consistent with their needs. Edna will provide us with invaluable tips to optimize positioning while maintaining their dignity.

.5 Credit Hour: Imaging of the Irradiated and Post-Surgical Breast - Bonnie Rush, RT(R)(M)(QM) will address the most common postsurgical and radiation effects on the breast and how they will impact imaging, interpretation and follow-up recommendations.
