Course Objective

Enhance your knowledge of the current state of mammography and breast imaging with presentations that cover Optimizing Positioning, Implants and Imaging with MRI and PEM, Avoiding Burn-Out and an Update on the long-awaited ACR Digital QA/QC Manual. This conference will provide 5 credit hours to meet the average yearly MQSA requirement.

Faculty

Barry Lumkin, MD

Staff Radiologist, Sharp Rees-Stealy, San Diego, CA

Michael Middleton, PhD, MD

Assistant Clinical Professor of Radiology UCSD, CA

Edna Marr, RT(R)(M)

Applications and Positioning Specialist, Portland, OR

Bonnie Rush, RT(R)(M)(QM)

President, Breast Imaging Specialists, San Diego CA

12th Annual Seminar

Presented by

Breast Imaging Specialists

In by 8 AM - Out by 1:15 PM

7:15AM - Registration & Continental Breakfast

1 Credit - TIME OUT: RE-EVALUATE YOUR POSITIONING SKILLS

As a positioning trainer, Edna Marr, RT(R)(M), has "walked the walk" and will now "talk the talk" to update and upgrade our positioning skills. Edna will share the history of our current positioning standards and explain the steps to optimize our images with tips to enhance digital positioning.

1 Credit - AVOIDING BURNOUT IN MAMMOGRAPHY

Acting with integrity and using humor appropriately is vital. Edna Marr, RT(R)(M), served as Mammography Chair, ASRT Practice Standards Committee, and will impart work enhancing philosophies to reinforce our passion for excellence.

1 Credit - THE CONTINUING ADVANCES IN BREAST MRI AND BIOPSY

Fellowship trained and highly experienced, Barry Lumkin, MD, will share the technical, provider and patient issues in Breast MRI and Biopsy. Case studies will compare the relative strengths/weaknesses and complementary roles of mammo, U/S and MRI in the DX and workup of breast cancer.

1.5 Credits - BREAST IMPLANTS, MRI and PEM - WHERE ARE WE IN 2011?

Michael S. Middleton, MD, PhD, has been involved with MRI of breast implants since 1992 and co-authored Breast Implant Imaging. He participated in the Naviscan Positron Emission Mammography (PEM)/MRI comparison study. Who better to share with us the present status of breast implant imaging and the continuing implant issues and controversies.

.5 Credit - AN UPDATE ON THE "PENDING" FFDM QA MANUAL

Digital mammography is subject to vendor specific QC processes which has delayed the production of a QA manual. Bonnie Rush, RT(R)(M)(QM) will provide an overview of the current draft.

Registration Form

(Please type or print clearly)

Name _____

(For certificate, include credentials)

Facility Name _____

Work Phone _____

Home Phone _____

E-mail Address _____

Important - All seminar info will be by e-mail!

Be sure to include an e-mail address.
Use friend's or facility's if you don't have one.
